

# Secure Care Services

Custom. Personal. Focused.

*What you need to know about the places and issues that impact your people the most.*

## WHAT GLOBAL ORGANIZATIONS WANT TO HAVE HAPPEN

- Skilled staff fulfilling objectives, making a difference, and reaping the fruit of their labor
- Those serving on our fields doing so with wise confidence that leads to effectiveness and longevity
- Families feeling secure in their own environmental awareness and the care of their leadership
- Supporting fellowships confident that the organization is stewarding their people appropriately
- Having as much pertinent information as needed to make wise leadership decisions in crisis

## WHAT GLOBAL ORGANIZATIONS DON'T WANT TO HAPPEN

- Have any of our staff harmed or hampered in their well-being or effectiveness
- Become a liability to our national partners, or bring harm even as we're seeking to help
- Put (or leave) our people in dangerous situations without appropriate planning or resources
- Be ignorant as leaders, of subtle (or dramatic) changes in the context in which our people serve
- Face liability for negligence or failing Duty of Care expectations in event of a crisis or calamity

## WHAT GLOBAL ORGANIZATIONS NEED

- Appropriate training opportunities and resources to equip staff; both domestic and international
- Cultivation and facilitation of Risk Assessment and Contingency Planning (RACP) for each locale
- Daily monitoring of events in and around each locale, and personal, relevant notifications as needed
- Access to the information, networking, and resources of the most informed security professionals

## WHAT SECURE CARE SERVICES CAN PROVIDE

- Access to a relevant, online, self-paced, comprehensive, Personal Security Training course that includes:
  - Basic Security Principals
  - Strategic Intercultural Relations (Legitimacy, Awareness, and Respect)
  - Hostile Surveillance Detection
  - Risk Assessment and Contingency Planning
  - Cyber Security
  - Emergency Leadership
  - Threatening Confrontations
  - Political Unrest
  - Interrogation
  - Kidnap Case Studies
  - Hostage Survival
  - Post Incident Care
- Coaching and interactive support in the development and cultivation of locale-focused RACP's
- Daily global crisis-watch (both open source and semi-classified information), with personal email notifications and alerts to you and any relevant fields
- Monthly Global Situation Reports that illuminate and analyze issues in the areas of your personnel
- Resourcing for consultation in regard to organizational risk assessment, crisis management, and IT security issues

In addition to over 30 years of personal experience throughout Southeast Asia, China, North Africa, the Middle East, and Europe, the Principal Doug Lagassé cultivates frequent interaction, consultation, and support from personal friends and professional experts throughout the industry around the world.
